

Here a couple of glimpses of the first days of the Summer school 2022 "Neckar Now III: Transformative approaches to a sustainable future - cities for children"

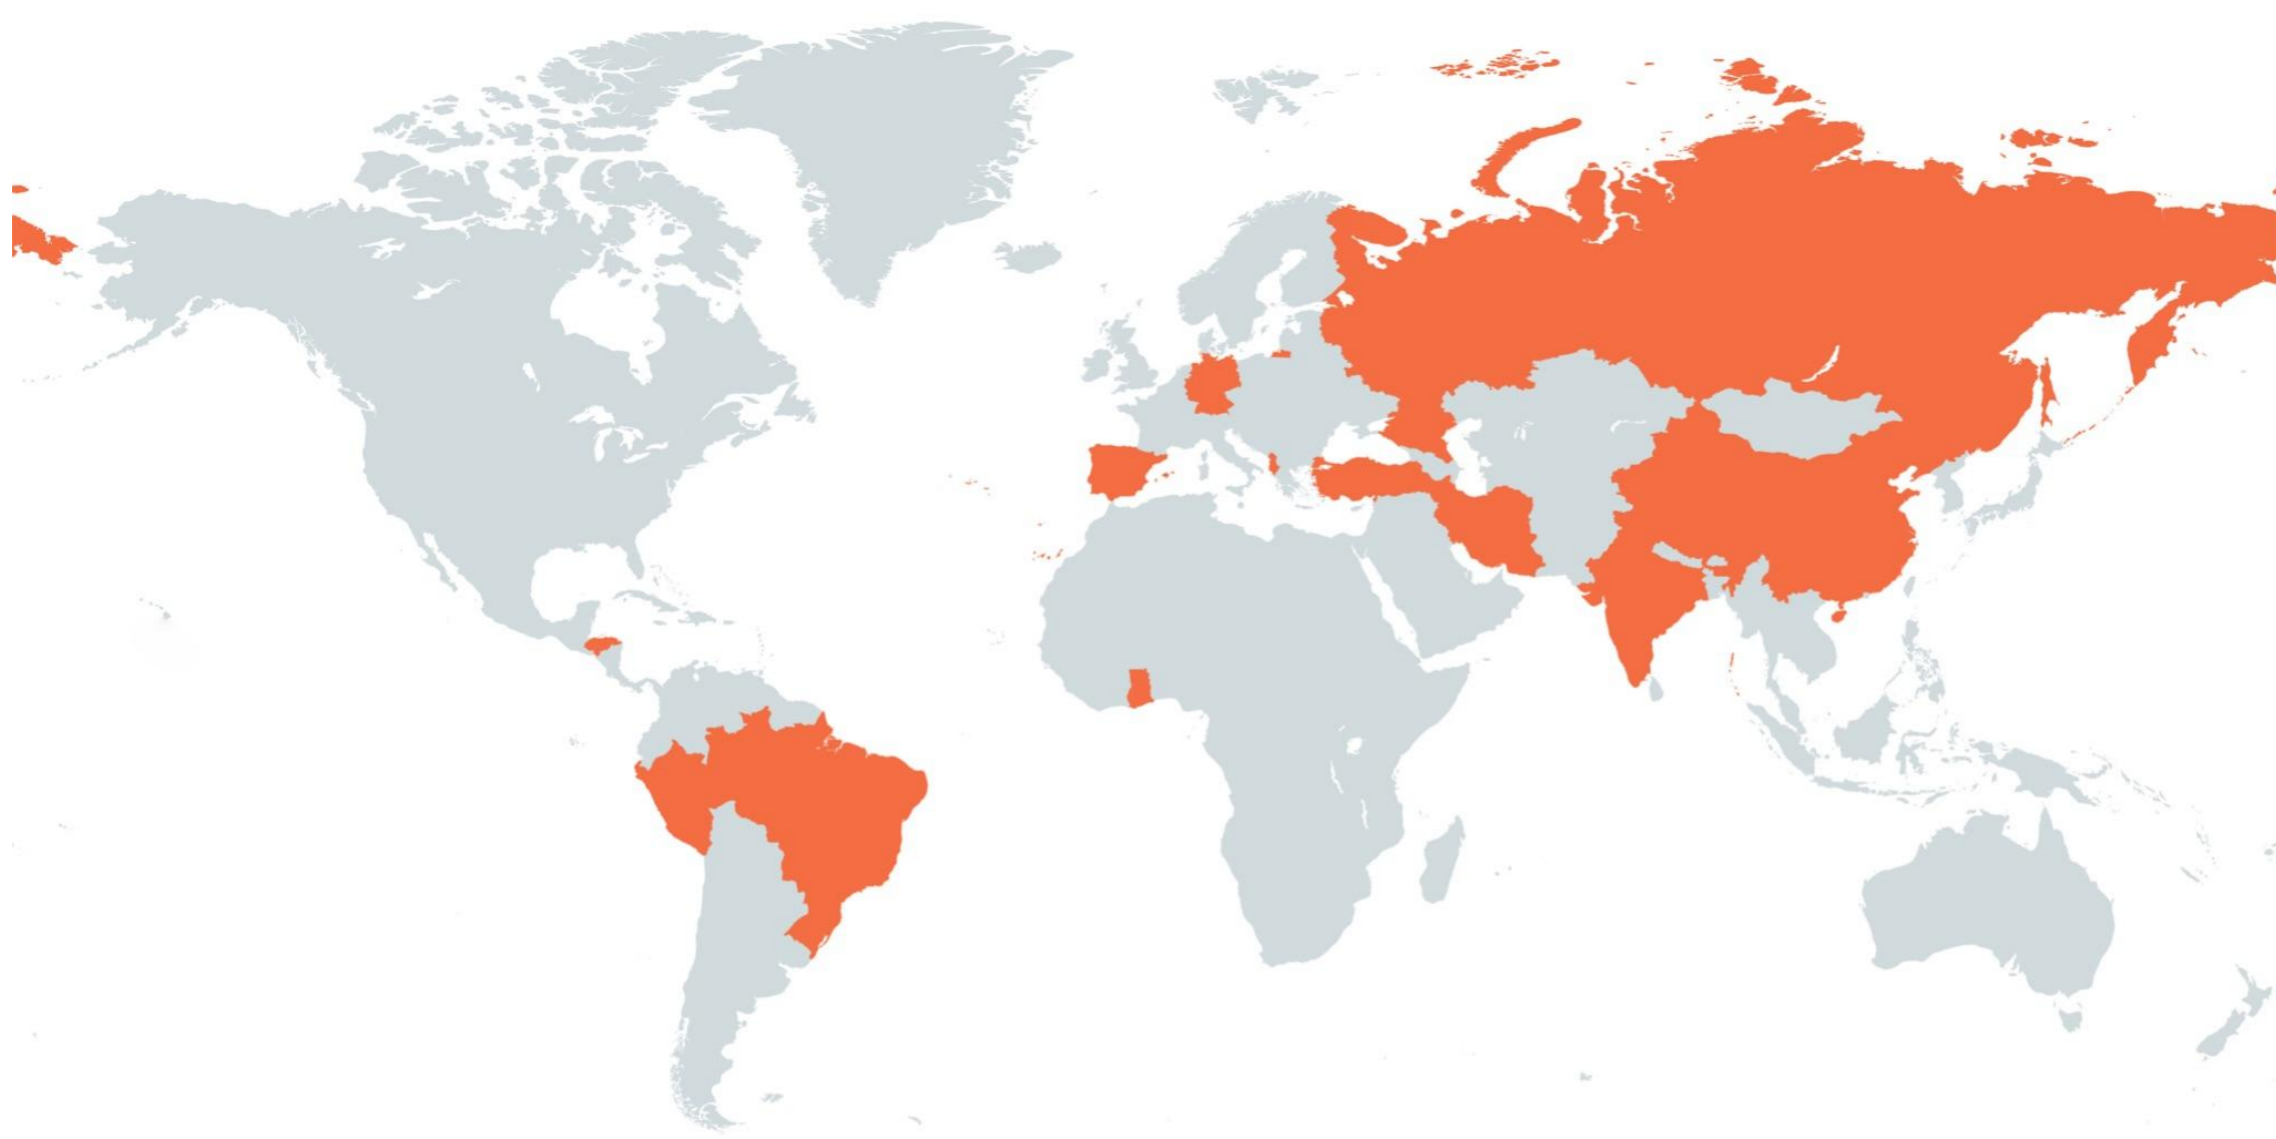

Field trips around the city.

Presentations from the students

In this edition, the participants explored the technical and architectural challenges of a city on the river from the perspective of children.

We are an international group with participants and mentors from 13 countries (Albania, Brasil China, Germany, Ghana, Honduras, Indien, Iran, Peru, Portugal, Turkey, Russia, Spain)

Learning outside of the classroom

The participants worked with the following questions:

1. How to create a intergenerational experiences?
2. How to integrate educational elements?
3. How can we adapt what is already there to the project? (topography, trees, views...)
4. How can we integrate the community?
5. How can we create spaces that allow different kinds of appropriation?
